

New Works – Patterns of Perspective

Opening: may 19th at 5 pm – Tuingalerie

Alexander Zaklynsky

Zaklynsky's Exhibition of New Paintings titled Patterns of Perspective will bring the viewer into a space of resonance and vibration. Visual structures consisting of parallax colour patterns and machine aided grid structures in space create a new group of work which aims to bring the viewer into a new experiential visual space. Zaklynsky expands his activities through his artscience residency with the EuroMoonmars 2018 team at ESA ESTEC Research & TechnologyCentre

The exhibition will be opened by Michael Toorop, vice-chairman Exhibition Committee Pulchri Studio and Bernard Foing, physicist ESTEC on Saturday 19th May at 17.00
